

PORT OF SEATTLE  
**MEMORANDUM**

12.3.70  
12-3-79  
12/79

DATE December 3, 1979

TO Betty Shivers-Byrd, Rental Management Specialist I

FROM Richard G. Petit, Assistant Chief Engineer

SUBJECT Proposed Street Vacation of Portion of Duwamish Avenue South

Engineering has reviewed the proposed street vacation in the vicinity of Terminal 106-W. We feel that the vacation will not interfere with Port interests in the area, provided that no portion of the paved street is included in the vacation.

Just for information, Union Pacific Railroad has a track either in or very close to this vacation area and could be impacted. This track is most likely under City franchise and, if so, Union Pacific should be listed as an interested party.
